> STOR.E ALU TV KIT (2.5")

O ENJOY THE VIEW

Get a clean view of all your recorded TV shows with the 1 TB STOR.E ALU TV KIT from Toshiba. It's a 2.5" 1 TB hard disk with plenty of recording space. It comes pre-formatted (FAT 32), so you just plug the 1 metre cable into the USB port on your TV or set-top box and off you go.

The robust aluminium casing mounts elegantly on the back wall of your TV, keeping the cable and drive out of sight. So if you have a TV or set-top box that supports USB recording, you can record all your shows and movies and still keep your living room neat.

You'll never miss an episode of your favourite series. And one Terabyte is enough space to record full-length films from your Full HD TV. Now that's one tidy terabyte!

> STOR.E ALU TV KIT (2.5")
